Test Definition: FD2PG
Prostaglandin D2 (PGD2)

Overview

Method Name
Prostaglandin D2 is measured by EIA/ELISA following extractions of specimens.

NY State Available
No

Specimen

Specimen Type
Serum

Specimen Required
Patient preparation:

Patient should NOT be on any aspirin, indomethacin, or anti-inflammatory medications, if possible, for at least 48 hours prior to collection of specimen.

Serum

Specimen Type: Serum

Container/Tube: Red top

Specimen Volume: 3 mL

Collection Instructions: Draw blood in a plain, red-top tube(s), serum-gel tube(s) is acceptable. Separate immediately and send 3 mL of serum frozen in a plastic vial.

Specimen Minimum Volume
1 mL

Test Definition: FD2PG
Prostaglandin D2 (PGD2)

Clinical and Interpretive

Clinical Information
Prostaglandins are fatty acids derived from arachidonic acid metabolism. They are closely related to the Thromboxanes and Leukotrienes. Prostaglandin D2 is derived mainly from Prostaglandin H2, and is metabolized to Dihydroketo Prostaglandin D2. Prostaglandin D2 is excreted directly into the urine. The sites of highest Prostaglandin D2 activity are the brain, spinal cord, intestines, and stomach. Prostaglandin D2 is the major Prostaglandin produced by uterine tissue. Prostaglandin D2 is a potent bronchoconstrictor, neuromodulator, and anti-antithrombin agent. It also stimulates the secretion of Pancreatic Glucagon. Prostaglandin D2 has been found to have an anti-metastatic effect on many malignant tumor cells. Prostaglandin D2 production and circulating levels are drastically suppressed by aspirin and Indomethacin.

Reference Values
Adult Reference Range(s): 35 - 115 pg/mL
No pediatric reference ranges available for this test.

Performance

PDF Report
No

Day(s) and Time(s) Test Performed
Monday through Friday

Analytic Time
10 days

Maximum Laboratory Time
12-14 days

Performing Laboratory Location
Inter Science Institute

Fees and Codes

Fees
- Authorized users can sign in to Test Prices for detailed fee information.
- Clients without access to Test Prices can contact Customer Service 24 hours a day, seven days a week.
- Prospective clients should contact their Regional Manager. For assistance, contact Customer Service.

Test Classification
This test was performed using a kit that has not been cleared or approved by the FDA and is designated as research use only. The analytic performance characteristics of this test have been determined by Inter Science Institute. This test is not intended for diagnosis or patient management decisions without confirmation by other medically established means.
