

## **Test Definition: 2AINH**

Factor II Inhibitor Profile, Professional Interpretation

#### Overview

#### **Useful For**

Interpretation of testing for the detection and quantitation of inhibitor to factor II

#### **Method Name**

Only orderable as a reflex. For more information see 2INHE / Factor II Inhibitor Evaluation, Plasma.

Medical Interpretation

#### NY State Available

Yes

## **Specimen**

## **Specimen Type**

Plasma Na Cit

## **Specimen Stability Information**

Specimen Type	Temperature	Time	Special Container
Plasma Na Cit	Frozen	14 days	

## **Clinical & Interpretive**

#### **Clinical Information**

Coagulation factor inhibitors arise in patients who are congenitally deficient in a specific factor in response to factor replacement therapy or can either occur spontaneously without known cause or in response to a variety of medical conditions, including the postpartum state, immunologic disorders, certain antibiotic therapies, and some malignancies, and in the older adult population.

Inhibitors of factor VIII coagulant activity are the most commonly occurring of the specific factor inhibitors.

## **Reference Values**

Only orderable as a reflex. For more information see 2INHE / Factor II Inhibitor Evaluation, Plasma.

An interpretive report will be provided.

## Interpretation

When no significant abnormalities are detected, a simple descriptive interpretation is provided. When abnormal results

# **Test Definition: 2AINH**

Factor II Inhibitor Profile, Professional Interpretation

are detected, a detailed interpretation is given, including an overview of the results and of their significance, a correlation to available clinical information, and elements of differential diagnosis.

#### **Cautions**

No significant cautionary statements

#### Clinical Reference

#### **Performance**

## **Method Description**

A coagulation expert (clinician or hematopathologist) reviews the laboratory data, and an interpretive report is issued.

#### **PDF Report**

No

#### Day(s) Performed

Monday through Friday

## **Report Available**

3 to 5 days

## **Performing Laboratory Location**

Mayo Clinic Laboratories - Rochester Main Campus

### **Fees & Codes**

## **Fees**

- Authorized users can sign in to <u>Test Prices</u> for detailed fee information.
- Clients without access to Test Prices can contact <u>Customer Service</u> 24 hours a day, seven days a week.
- Prospective clients should contact their account representative. For assistance, contact <u>Customer Service</u>.

#### **Test Classification**

Not Applicable

## **CPT Code Information**

85390-26
