

## Susceptibility, *Mycobacterium tuberculosis* Complex, Pyrazinamide, Varies

**Test ID:** TBPZA

**Explanation:** TBPZA / Susceptibility, *Mycobacterium tuberculosis* Complex, Pyrazinamide, Varies testing is currently delayed due to reagent backorder. Isolates submitted for testing will be held until additional reagent is received and testing is able to resume. Alternatively, *pncA* sequencing can be performed instead of broth microdilution testing. Please call 1-800-533-1710 if you would like to change pending orders to have testing performed via sequencing (MTBPZ / *Mycobacterium tuberculosis* Complex, Pyrazinamide Resistance by *pncA* DNA Sequencing, Varies).
