# MAYO CLINIC LABORATORIES

# FILE DEFINITION TEST CHANGE

Notification Date: July 27, 2022 Effective Date: August 23, 2022

# Comprehensive Metabolic Panel, Serum

Test ID: CMAMA

**Explanation:** The estimated GFR calculation is being updated with the 2021 CKD-EPI equation and will be removing 2 raced based eGFR resultables, replaced with a single resultable. The new 2021 CKD-EPI eGFR values cannot be directly compared to either the previous 2009 CKD-EPI Cr eGFR values that were separately reported for African American and non-African American. The 2021 CKD-EPI creatinine eGFR is not valid for patients <18 years old.
