

N-terminal Telopeptide, Serum

Test ID: SNTX

Explanation:

SNTX continues to be down due to reagent supply issues. We have received notification from the referral laboratory that recommended alternative test FNTPX is also test down due to reagent supply issues. There are no referral options through Mayo Clinic Laboratories at this time. Notification will be sent if a suitable referral option is identified or when reagent supply issues are resolved. Samples that have been received during this time will be stabilized and stored at MCL.
