

## Human Papillomavirus (HPV) DNA Detection with Genotyping, High-Risk Types by PCR, ThinPrep, Varies

**Test ID:** HPV

### Explanation:

- On the effective date, vaginal source will no longer be accepted for Test ID HPV / Human Papillomavirus (HPV) DNA Detection with Genotyping, High-Risk Types by PCR, ThinPrep, Varies.
- For vaginal source, please see test ID VHPV / Human Papillomavirus (HPV) Vaginal Detection with Genotyping for High-Risk Types by PCR.

#### Current Specimen Required

**Submit only 1 of the following specimens:**

**Specimen Type:** Cervical (endocervical or ectocervical)

**Container/Tube:** ThinPrep/PreservCyt solution vial

**Specimen Volume:** 3 mL of solution in ThinPrep/PreservCyt vial

**Collection Instructions:**

1. Bag ThinPrep specimens individually as they have a tendency to leak during transport.
2. Place labels on the vial and on the bag.

**Specimen Type:** Vaginal

**Container/Tube:** ThinPrep/PreservCyt solution vial

**Specimen Volume:** 3 mL of solution in ThinPrep/PreservCyt vial

**Collection Instructions:**

1. Bag ThinPrep specimens individually as they have a tendency to leak during transport.
2. Place labels on the vial and on the bag.

**Additional Information:** This assay is validated but not FDA-approved for vaginal source specimens.

#### New Specimen Required

**Specimen Type:** Cervical (endocervical or ectocervical)

**Container/Tube:** ThinPrep/PreservCyt solution vial

**Specimen Volume:** 3 mL of solution in ThinPrep/PreservCyt vial

**Collection Instructions:**

1. Bag ThinPrep specimens individually as they have a tendency to leak during transport.
2. Place labels on the vial and on the bag.
