

Red Blood Cell Membrane Panel, Next-Generation Sequencing, Varies

Test ID: NGMEM

Explanation:

Due to reagent supply issue, NGMEM / Red Blood Cell Membrane Panel, Next-Generation Sequencing, Varies will become nonorderable immediately. A notification will be sent once testing resumes.

Recommended Alternative Test:

RBC Membrane Disorders Gene Sequencing Panel

Test ID: ZW204

Referral Lab Code: 7450870

Methodology:

NextGen Sequencing

Specimen Requirements:

Specimen Type: Whole blood

Container/Tube: Lavender top (EDTA)

Specimen Volume: 3 mL

Note: Complete and submit with specimen:

Lab requisitions must be completed (Cincinnati Children's Hematology Test Requisition).

Specimen Stability Information:

Specimen Type	Temperature	Time
Blood	Ambient	7 days

CPT Code:
