

St. Louis Encephalitis Antibody Panel, IgG and IgM, Spinal Fluid

Test ID: STLPC

Explanation:

This test will be made obsolete as a standalone orderable on effective date. Clinical presentation of arboviruses is similar and unable to be differentiated in the clinical setting. Testing individual arbovirus components may lead to delay in turnaround time and timely diagnosis. Best practice testing recommendation is use of Arbovirus panel.

Recommended Alternative Test:

Arbovirus Antibody Panel, IgG and IgM, Spinal Fluid

Useful for:

Aiding the diagnosis of arboviral encephalitis (California [LaCrosse], St. Louis, Eastern equine, and Western equine encephalitis) using spinal fluid specimens
