## HIV-1 Genotypic Drug Resistance to Reverse Transcriptase, Protease, and Integrase Inhibitors, Plasma

**Test ID:** HIVDR

### **Explanation:**

Due to instrumentation issues, results for this test will be delayed past the published turnaround time. Specimens will be stabilized upon arrival and processed in the order they are received. The anticipated duration of this delay is expected to be approximately two weeks, and an update will be provided when standard testing resumes.

Note: Submissions for test code HIQDR (HIV-1 RNA Quantification with Reflex to Genotypic Drug Resistance to Reverse Transcriptase, Protease, and Integrase Inhibitors, Plasma) that reflex to HIVDR will also experience delays for final comprehensive reporting.
