

MayoComplete Targeted RNA Sequencing Panel, Next-Generation Sequencing, Tumor

Test ID: MCRSP

Explanation:

Due to a change of the chemistry reagent, MCRSP: MayoComplete Targeted RNA Sequencing Panel, Next-Generation Sequencing, Tumor will be delayed effective February 17, 2026. Specimens will be processed upon arrival; however, this delay will add approximately 20 days to the estimated turnaround time.

Concurrently with this test delay, test changes to MCRSP will be implemented to the RNA subpanel to align with current World Health Organization classification guidelines.

Additional notification will be sent when standard turnaround time resumes.
