

Ova and Parasite, Travel History or Immunocompromised, Feces

Test ID: OPE

Explanation:

Due to continued high demand for testing during the national cyclospora outbreak, testing continues to be delayed with a turnaround time of approximately 18 days.

If cyclospora is suspected, order test code CYCL.

NOTE: Requests to add CYCL to existing OPE orders will not be accommodated. Sensitivity for Cyclospora detection is comparable across both tests.

We appreciate your patience during this time and will provide an update as soon as normal testing patterns resume.
