MAYO CLINIC LABORATORIES

TEST OBSOLETE

Notification Date: Nov 3, 2026
Effective Date: Dec 3, 2026

Acute Porphyria Gene Panel, Varies

Test ID: APGP

Explanation:
On the effective date, test ID APGP will be obsoleted. Recommended alternative testing is listed below. For further specimen and testing details, refer to the Mayo Clinic Laboratories Test Catalog.

Recommended Alternative Tests:

Test ID	Test Name	Useful For
PCGP	Porphyria Comprehensive Gene Panel, Varies	Follow up for abnormal biochemical results suggestive of **porphyria** Establishing a molecular diagnosis for patients with porphyria Identifying variants within genes known to be associated with porphyria, allowing for predictive testing of at-risk family members
CGPH	Custom Gene Panel, Hereditary, Next-Generation Sequencing, Varies	*ALAD, CPOX, HMBS,* and *PPOX* are each available within the Custom Gene Panel and useful for: Establishing a molecular diagnosis for patients with **acute porphyria** Identifying variants within genes known to be associated with acute porphyria, allowing for predictive testing of at-risk family members
