MAYO CLINIC LABORATORIES

TEST STATUS – TEST DELAY

Notification Date: October 29, 2026
Effective Date: Immediately

N-Methylhistamine, Random, Urine

Test ID: NMHR

Explanation:
Due to instrument issues, *N*-Methylhistamine testing will be delayed. Specimens received at MCL will be stabilized and processed in the order they are received. The turnaround time on specimens is expected to be 10 days from receipt. The duration the test is expected to be in a delay status is 3 weeks or more. An update will be provided when standard testing resumes.
