MAYO CLINIC LABORATORIES

TEST DELAY

Notification Date: November 5, 2026
Effective Date: Immediately

Gastrointestinal Dysmotility, Autoimmune/Paraneoplastic Evaluation, Serum

Test ID: GID2

Explanation:

Due to instrumentation issues, results for AAGFS (Alpha-3 Beta-4 Ganglionic Neuronal Acetylcholine Receptor Binding Antibody, Flow Cytometry, Serum (Non-Orderable)) will be delayed beyond the published turnaround time. Results may take an additional 10-14 days to report, with an anticipated duration of 4-6 weeks for this testing disruption. The remaining components of this evaluation are not impacted. An update will be provided when normal testing operations resume.
